1 Corporate information

Critical Path Technologies Private Limited was incorporated in 2022 under the provisions of Companies Act, 2013 having its registered office in Gurgaon. The Company is primarily engaged in the business of providing multiple financial as well as non-financial products and services to salaried employees.

2.1 Basis of preparation

The financial statements have been are prepared in accordance with the generally accepted accounting principles in India (Indian GAAP) under the historical cost convention on accrual basis in compliance with all material respects of the Accounting Standards (AS) notified under section 133 of the Companies Act, 2013 (the Act) read with the Companies (Accounting Standards) Rules, 2021 (as amended), and with the relevant provisions of the Act and pronouncements of the Institute of Chartered Accountants of India (ICAI). The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III (as amended) to the Act. Based on the nature of business, the Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

The Company is a Small and Medium Sized Company ('SMC') as defined in the Companies (Accounting Standards) Rules, 2021 (as amended). Accordingly, the Company has complied with the Accounting Standards as applicable to a SMC.

2.2 Use of estimates

The preparation of financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities, at the end of the reporting period. Although, these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Significant estimates used by management in the preparation of these financial statements include the estimates of the economic useful lives of property, plant and equipment. Any revisions to accounting estimates are recognised prospectively.

2.3 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

(a) Sale of services

Revenue for sale of services is recognised as per the terms of the agreement with the customers and when the services are rendered.

Unbilled revenues represent revenues recognised on services rendered as per contractual terms, for which amounts are to be billed in subsequent periods. Advances received for services are reported as liabilities until all conditions for revenue recognition are met.

(b) Sale of Products

Revenue from sale of products transactions is recognised when significant risks and rewards of ownership have been transferred to the buyer and no significant uncertainty exists regarding amount of consideration.

(b) Interest income

Interest income on deposits and loans are recognized in time proportion basis taking into account the amount outstanding and the rate applicable.

2.4 Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost comprises the purchase price, borrowing costs, if capitalization criteria are met, and any cost attributable to bringing the assets to its working condition for its intended use which includes taxes, freight, and installation and allocated incidental expenditure during construction/ acquisition and exclusive of input tax credit (IGST/CGST and SGST) or other tax credit available to the Company.

When parts of an item of Property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent expenditure relating to tangible assets is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

2.5 Depreciation

Depreciation on Property, plant and equipment is provided on written down value method over the useful lives of assets prescribed under Schedule II of the Act. In respect of additions, depreciation is provided on pro-rata basis from the date of acquisition/installation. Depreciation on sale/discard from property, plant and equipment is provided for upto the date of sale, deduction or discard of property, plant and equipment as the case may be.

2.6 Impairment

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists then the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

2.7 Leases

Leases where the lessor effectively retains, substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on straight-line basis over the lease term.

Critical Path Technologies Private Limited

Critical Path Technologies Private Limited

2 Significant accounting policies (contd.)

2.8 Employee Benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Accounting Standard - 15 'Employee Benefits'.

Short term benefits

All employee benefits falling due wholly within 12 months of rendering services are classified as short term employee benefits like salaries, wages and short-term compensated absences and are recognised as expenses in the period in which the employee renders the related services.

2.9 Taxes on Income

(a) Current tax

Current tax is the amount of income tax determined to be payable in respect of taxable income for a period as per the provisions of the Income-tax Act, 1961 ("IT Act").

(b) Deferred tax

Deferred tax is the effect of timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are reviewed at each balance sheet date and recognized/derecognized only to the extent that there is reasonable/ virtual certainty, depending on the nature of the timing differences, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

2.10 Provision, contingent Liabilities and contingent assets

(a) A provision is recognized when there is a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation and in respect of which reliable estimate can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

(b) A disclosure for a contingent liability is made when there is a possible obligation or a present obligation but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood on outflow of resources is remote, no provision or disclosure is made.

(c) Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

2.11 Cash and cash equivalents

Cash and cash equivalents comprise cash and deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible into known amounts of cash to be cash equivalents.

2.12 Earning per equity share

Basic earnings per equity share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purposes of diluted earnings per equity share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.13 Segment reporting

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Company. The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

2.14 Rounding Off

All the amounts are rounded off to the nearest thousands.

a) Terms/rights attached to Equity Shares of ₹ 10/- each

The Company has only one class of equity shares having a face value of ₹ 10/- per share (March 31, 2023: ₹ 10/- each). Each shareholder is entitled to one vote per share held. The Company declares and pays dividend in Indian rupees. The dividend proposed by the board of directors is subject to approval of the shareholders in the general meeting. In the event of liquidation of the Company, the equity shareholders are entitled to receive remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

b) Terms/rights attached to Series Seed Compulsory Convertible Cumulative Preference Shares (CCCPS) of ₹ 100/- each

(i) During the year ended 31 March 2024, the Company issued 6,563 CCCPS of ₹ 100 each fully paid-up at premium of ₹ 66,508/- each. CCCPS carry cumulative dividend @ 0.0001% p.a. The shares shall rank paripassu and shall have identical rights and privileges with respect to voting and dividend rights and will have superior rights with respect to liquidation. The preferential dividend is cumulative and shall accrue from year to year whether or not paid. All accrued dividends shall be paid in full (together with dividends accrued from prior years) paripassu with the other preference shares but prior and in preference to any dividend or distribution to the holders of equity Shares. In addition, the CCCPS shall fully participate with the equity shares in all dividends declared by the Company. The shares of the Company shall be entitled to one vote at the general meeting and may be converted into Equity Shares at any time at the option of the holder of the Series Seed CCCPS.
