PROFILE

Aspiring BBA marketing student with foundational knowledge in digital marketing, consumer behavior, and computer applications. With a keen interest in these subjects, has also gained hands-on experience in data organization and analysis. Eager to apply his knowledge and skills in dynamic marketing and data-driven environments.

WORK EXPERIENCE

DoorDarshan OTT (Waves) 09/24 - 01/25

Data analysis and clean-up

- Processed and refined raw data to ensure accuracy, consistency, and usability for the OTT platform.
- Structured and categorized a database of over 300 movies and TV shows, optimizing content accessibility and retrieval.
- Utilized MS Excel to manage, format, and export the curated content efficiently, ensuring seamless integration into the platform.
